

Disarmament and Security Centre news

Lucy Stewart, a WILPF member, is the programme manager at the DSC in Otautahi. She and others are doing great peace work, especially in disarmament education, and they work with the students of University of Canterbury club UCDisarm, and run frequent online sessions on aspects of peace "Disarm Korero"(next one 10 March, open to anyone who signs up) For more information go to www.disarmsecure.org
Sadly, this government has decided to pull the funding of Disarmament Education UN fund, so money is always a problem.
